Large Wet Slides at Bridger

Date Wed, 04/26/2023 - 07:55 Activity Skiing

Saw a number of large wet slides at Bridger Bowl the morning of 4/26. One running deep into North Bowl, and a couple other large slides in Bridger Gully coming off the ridge. These seemed to be recent -- likely from the past 48 hours.

Region Bridger Range Location (from list) Bridger Bowl Observer Name Koby Gordon
